## EDUCATION

### High School / 12th Form

E.S. Eng° Acácio Calazans Duarte

It was in my hometown that I finished my mandatory education. Finishing High School with an average grade of 18,7/20, my journey was highlighted by all the extracurricular activities I engaged in: “Headmaster Jr” (2 consecutive terms), Drama Club, Science Club, and various science-related competitions.

### Informatics & C. Eng, BSc / 3rd Year (currently)

FEUP

In this new city, I had to re-invent myself and adapt to a new environment. I joined new projects, created new routines and had the opportunity to add many skills to my portefolio. Currently, I have an average grade of 17,7/20.

## OTHER PROGRAMS

2021

### JUNIOR LEADERSHIP

Academia  
Paul Harris,  
ONLINE

Online Course, associated to the Rotary Club and acknowledged by the President of the Republic. Themes such as personal leadership (including the concept of Brand, Goals and Method) as well as team management (conflict resolution and teamwork) were addressed.

2022

### SEARCH INSIDE YOURSELF

Fundação  
Calouste  
Gulbenkian,  
LISBOA

Course on the scope of the Gulbenkian Mais scholarship. In this course, themes in the field of mindfulness, personal and interpersonal management, motivation, empathy and leadership were addressed. Throughout the course, there also were opportunities to train this new knowledge with exercises focusing on each theme focal point.

## LANGUAGES

Portuguese  
Native

English  
Fluent

Spanish  
Basic

## SOFTWARE

C/C++

Python

Java

SQL

PHP

JavaScript

Haskell

## SKILLS

Throughout my college course, I was in touch with numerous technologies, that I learned to use with ease, from low to high level. Among these, I highlight the following:

- Python3
- C/C++
- Java
- SQLite e PostgreSQL
- Git (local, GitHub e GitLab)
- HTML, CSS, PHP, JavaScript
- Laravel 10
- Haskell
- Docker
- Figma

Furthermore, I acquired knowledge in the field of maths and physics, along with programming design patterns, paradigms and techniques. I also got acquainted with automaton design and interpretation, algorithm design and optimization, cyber security and human-computer interaction.

Additionally, I got proficient in some soft skills, such as professional communication, data analysis using excel and/or similar softwares, among others.

## PROJECTS & ACTIVITIES

2019/2021  
ESEACD,  
M<sup>a</sup> GRANDE

### HEADMASTER JUNIOR

In the position of Headmaster Junior, I was able to enhance my public speaking and logistics skills by participating in various conferences and meetings. The accomplishment I would like to highlight the most is the implementation of the "Political Science" class, from conceiving the idea to identifying the required "essential learnings".

2020/2021  
INTERACT,  
M<sup>a</sup> Grande

### SECRETARY

During my time with Interact (the youth branch affiliated with the Rotary Club), I had close contact with numerous young individuals from across the country (other Interact members), as well as with the local community. I engaged in online courses and conferences, as well as volunteered in food and animal welfare initiatives.

2021/present  
FEUP,  
Porto

### TUNA DE ENGENHARIA U.P

Since enrolling at FEUP, I became a member at TEUP. Within this context, I gained new musical skills and honed abilities in logistics, resource management under pressure, leadership, and public speaking.
